DAVID G

Full Stack Developer | Python | JavaScript | REST APIs

Tamil Nadu, India | +91 63838 46723 | davidgdavidg22@gmail.com
GitHub: github.com/David-debug-commit

PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science Engineering graduate (B.E., 2026) with a deployed, production-ready web application built with Python, JavaScript, HTML5, CSS3 and SQL. Experienced in REST API development, user authentication and session handling, third-party API integration (Twilio WhatsApp API), and cloud deployment on Cloudflare and Render. Skilled in Generative AI-assisted development (Claude, ChatGPT, Gemini) with strong prompt engineering, using AI tools to speed up coding, debugging and testing while reviewing and validating all generated code. Available immediately for full-time and internship roles in Chennai.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), SQL, Java

Frontend: HTML5, CSS3, JavaScript, Responsive Web Design

Backend and APIs: Python Backend Development, REST API Development, JSON, HTTP, Client-Server Architecture, Third-Party API Integration, Twilio WhatsApp API, Authentication and Authorization, Session Handling

Databases: SQL, Relational Database Modeling, CRUD Operations

Cloud and Deployment: Cloudflare (Workers / Pages), Render, Decoupled Architecture Deployment, CI/CD Workflow

Tools: Git, GitHub, VS Code

Generative AI: Claude, ChatGPT, Gemini, Prompt Engineering, AI-Assisted Development, AI-Assisted Debugging and Testing, Code Review of AI-Generated Code

Core Concepts: Data Structures, Object-Oriented Programming, Operating Systems, Computer Networks, DBMS, Software Engineering

PROJECT EXPERIENCE

Commercial Photography Business Platform | Full Stack Web Application

Technologies: Python, JavaScript, HTML5, CSS3, SQL, REST APIs, Twilio WhatsApp API, Cloudflare, Render, Git, GitHub

- Designed, developed and launched a complete commercial web application for a photography business with a visual portfolio and an interactive booking management workflow.
- Built a secure user authentication system with credential validation, session handling and protected admin access.
- Integrated the Twilio WhatsApp API (third-party REST API) to send real-time booking alerts and customer inquiries to the administrator's WhatsApp.
- Developed Python backend REST API services with SQL relational database storage for bookings and customer data.
- Deployed a decoupled architecture: frontend on Cloudflare for low-latency global delivery and Python backend on Render.
- Managed source code with Git and GitHub, using a CI/CD-style deployment workflow for continuous, zero-downtime releases.
- Used Claude, ChatGPT and Gemini with prompt engineering to speed up development, debugging and testing, and manually reviewed and validated generated code.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering

Imayam College of Engineering, Trichy, Tamil Nadu | Graduated 2026 | Aggregate: 70%

Coursework: Database Management Systems, Object-Oriented Programming, Data Structures, Operating Systems, Computer Networks, Software Engineering Principles

CERTIFICATIONS

- Python Programming - EMC
- HTML and CSS Web Development - EMC
- Java Fundamentals - Dev.io

ADDITIONAL INFORMATION

Languages: English (Professional Working Proficiency), Tamil (Native)

Availability: Immediate joiner for full-time and internship roles
